SUPERINTENDENT'S REPORT

Feb. 1, 1925 to Feb. 1, 1926

School attendance this year has attained a new record as our percent to date is about 92. There is also much less tardiness than in former years. This is a good record and shows that interest in education is increasing.

Clarksville has 9 students in Pittsburg High School and 1 in Canaan. Four will complete their course in June and about that number will probably enter in September. We may, therefore, expect about the usual number in secondary schools next year. Some of our young people are planning to continue their education and are expecting to enter Plymouth Normal in the fall. Girls who expect to teach should plan to take the Normal course as all schools will soon demand trained teachers. The minimum requirement for teachers entering service is now one year of training.

A majority of our pupils remain at the school house during the noon hour. In the Young and West schools hot lunches have been served throughout the winter. Oil stoves were loaned to the teachers, and over these stoves water is easily heated and the meals prepared. Pupils assist the teachers in preparing these lunches and appear to enjoy the work.

Parents in general are interested for their children to receive all the education our schools can offer and in most cases wish them to attend high school. All young people need at least a high school education in this age of rapid progress. Conditions have changed greatly, even in a few years. Life is more complex, competition keener, and success more difficult for the unprepared. I trust that everyone will bear these facts in mind and that we may encourage our young people to form correct ideals and to secure all the education possible.

Respectfully submitted,

William F. Skelton, Supt.

ANNUAL REPORT, TOWN OF CLARKSVILLE

REPORT OF SCHOOL NURSE

For Town of Clarksville

Mr. William F. Skelton,
Superintendent of Schools
Dear Sir:

I herewith submit my report for the first five months (Sept. 1, 1925 to Feb. 1926) as School Nurse in the Town of Clarksville.

Number of visits to schools	24
Number of visits to homes	15
Number of pupils examined	47

Of these the following defects were found:

Number of pupils with defective teeth	30
Number of pupils with enlarged tonsils	16
Number of pupils with adenoids	10
Number of pupils with skin defects	3
Number of pupils with defective sight	6
Number of pupils with malnutrition	3
Number of pupils that are anemic	5
Number of pupils with pediculosis	4
Number of treatments in community	7
Number of days spent in school or community work	13

The pupils have all been weighed and measured and with few exceptions up to standard in weight.

Tests for hearing and vision have been given the schools.

Plans have been made to hold an eye clinic as well as dental clinic in Pittsburg in the Spring, so the pupils will have a chance of having corrective work done.

ANNUAL REPORT, TOWN OF CLARKSVILLE

The Junior Red Cross has been organized in all the schools. It has a very good health program connected with it and it also helps to create a splendid spirit of service for others among the pupils.

Inspection and observation of the pupils have been made on each visit to the schools for defections and habits that need attention.

Health talks have been given on the care of the body, teeth and hair, the value of fresh air night as well as day, the value of good health and food habits, and correct posture.

Respectfully submitted,

Grace Lucas, R. N.
School Nurse.
